

## Car Paint Production Line

ELE can provide the whole making machines for car paint, because car paint is high viscosity products, so we adopt high viscosity mixer for pre-mixing. And Pin type horizontal bead mill for reducing final particle size.

### Production flow for Car Paint production line

## Production Photos

### 1) Pre-Mixing System

2) Horizontal bead mill to reduce the particle size

### 3) Mixing Tank

## **Professional technical supports & Processing Machines**

Our engineers are around 20years rich experience in this area, professional skills and stable processing.

## **Maintenance & Services**

- 1.Before order, customer can take materials to ourvlab and make test grindings, spot-testing parameters like particle size distribution, obtain reliable data for model selection;
- 2.We provide you opeatian manual by chinese or English;
- 3.We offer you Videos for equipment installation and maintenance in both English and Chinese;
